

Planner 2/3 (Transportation) (Job #3933)
Public Works and Utilities Department
Transportation Planning and Programming Division
Salary Range: \$26.68- \$38.45 per Hour (Commensurate with education and experience)
Open Until Filled

Pierce County is seeking talented, seasoned planners to perform professional planning work in the development, maintenance, and use of the County's travel demand model for the Public Works and Utilities Transportation Planning and Programming Division. Assignments may also include managing projects, staffing comprehensive community planning efforts, analyzing future travel demand based on alternative forecasting scenarios and/or certain supervisory responsibilities. **Planner 2:** Graduation from a four-year college or university with major coursework in planning, geography, public administration or related discipline and two or more years of increasingly responsible experience in county, municipal, or regional planning. Additional education or experience may substitute for the recruiting requirements. **Planner 3:** Requires a four year degree from an accredited college or university with major course work in planning, geography, public administration or closely related field and five years planning experience directly related to travel demand modeling. Pierce County offers family-oriented benefits for the employee and their family members. For details contact: Pierce County Human Resources Department (253) 798-7480 or apply online: pchumanresources@co.pierce.wa.us or <http://www.piercecountywa.org/jobs>.
